Re: APPLICATION FOR PUBLIC HEARING
Pointe a la Hache Commingling
Facility No. 1 (93167)
Pointe a la Hache Field
Plaquemines Parish, Louisiana

Dear Sir:

Pursuant to the provisions of Title 30 of the Revised Statutes of 1950 and Statewide Order No. 29-D-1, application is made on behalf of BEPCO, L.P. (BEPCO) for the calling of a public hearing after **ten-day legal notice**, to consider evidence relative to the issuance of an order giving permission to allocate the production from the following units by metering the bulk production and then allocating back to each property by means of monthly well tests. These units have been previously approved for net metering at the Pointe a la Hache Commingling Facility No. 1 in the Pointe a la Hache Field, Plaquemines Parish, Louisiana:

VUA (502032)	VUN (502018)
VUB (502033)	BF-5B SUA (604869)
VUF (303422)	UL-2 RB SUA (606324)
VUL (502028)	

BEPCO also requests that the VUQ be approved for commingling by net metering with production previously approved for commingling at the Pointe a la Hache Commingling Facility No. 1 in the Pointe a la Hache Field, Plaquemines Parish, Louisiana. The VUQ consists of the following leases:

BEPCO Lease 3384 = Robert U. Weiss, Jr.
BEPCO Lease No. 49783 A, B & C =
A) Alison Fontenelle Kramer; B) Brett B. Fontenelle; C) Eric C. Fontenelle

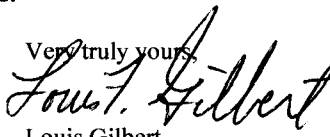

The method of measurement and allocation of production, which BEPCO is proposing, is explained in the attached description of operations and schematic diagram for the Pointe a la Hache Commingling Facility No. 1. As indicated the production will be metered and then allocated back to each of the above properties by means of monthly well tests. Production from the VUQ will be metered separately. BEPCO requests that a hearing be called so that evidence can be submitted to substantiate its proposal for the utilization of monthly well tests/meters in lieu of gauge tanks for the allocation of said production. BEPCO believes that this commingling of gas and/or liquid hydrocarbons, and the use of well tests/meters for allocation of production in the manner proposed will provide reasonably accurate measurement, will not create inequities, and will afford the owner of any interest the opportunity to recover his just and equitable share of the production.

BEPCO will provide for the advertisement of the legal notice in a newspaper of general circulation in the vicinity of the Pointe a la Hache Field and also will post the legal notice in a prominent place in the area of the Pointe a la Hache Field. BEPCO will also mail a copy of said legal notice to the interested parties, including operating and royalty interests.

Attached are (1) a copy of the description of operation and schematic, (2) a list of Interested Parties, including operating and royalty interest, (3) a signed statement of reasonable, accurate measurement, and (4) a check in the amount of \$755.00 to cover the application fee due.

A copy of this application is being sent to Mr. Richard D. Hudson, District Manager, Lafayette, Louisiana, and to each Interested Owner, Represented Party, and Interested Party after a reasonable effort was made to ascertain the names and addresses of all Interested Owners, Represented Parties and Interested Parties.

All inquiries concerning this proposal should be directed to Mr. Louis Gilbert, 3636 North Causeway Blvd., Suite 204, Metairie, Louisiana 70002, telephone number (504) 834-8112.

Very truly yours,

Louis Gilbert
for BEPCO, L.P.
